About the VDT[®]

The Virtual Dementia Tour temporarily affects your physical and sensory abilities to demonstrate how aging and dementia affect everyday life. An in-depth debriefing helps you learn what you can do to better care for those living with dementia.

Take 40 minutes out of your day to discover new ways to support individuals with dementia, based on your own experience during the VDT.

RSVP NOW

Time slots available every 15 minutes. Scan code to register.
